Cc: Hearings Pabilaw <hearings@pabilaw.org>

Dear Ms. Morell et al.,

Since we received no response to my multiple emails yesterday, in good faith, I nevertheless called in to participate in the first scheduled "Resolution Meeting" for our client [REDACTED] this morning at 9:30am.

I was advised that the two CSE representatives who participated, Ms. Sandi and Ms. Agnello, lacked decision-making authority to resolve ALL of the issues raised in the Parent' due process complaint, including entering into a Stipulation Agreement for the Student's tuition at iBRAIN along with various related services, such as special transportation and nursing services, where applicable.

This was disappointing because, under the circumstances, this meeting was not a proper Resolution Meeting. As you know, the LEA is required to have participants who have the authority to resolve ALL of the issues raised in the Due Process Complaint. In addition, the meeting are required to be scheduled in a mutually agreed date and time.

Please provide proposed rescheduled date() and time(), along with individual who have the authority to resolve all issues, so that we can proceed accordingly. We will coordinate with our Clients to have proper Resolution Meetings scheduled as soon as possible.

Regards,

Peter
